- ☒ Renovated 3 classrooms
- ☒ Installed 4 playground items
- ☒ Renovated 1 office room
- ☒ Built flower beds and cleaned up school yard.

ABOUT THE PROJECT

Vision for Society Change (Visoc), in cooperation with the local governments of Kiranyiwad and Siwandeti ward, manages three primary schools, which are Ilkiurei Primary School, Olchoki Primary school and Natema Primary school.

The Ilkiurei primary school is the government school, built under the villager's manpower and partly donation from government and foreign individual volunteers from the church mission. Currently the school has the total number of 667 students, where by 316 are boys and 351 are girls.

GiveBack GiveAway and 20 volunteers teamed up to renovate the whole building with 4 classrooms. We cleaned, we rebuilt, we painted, reviving the soul of Ilkiurei school again. The refurbished structure had a staff room added to allow the teachers a quiet space to prepare their lessons. We also made sure to leave some fun for the children by designing and installing a new playground.

Upon Day 4 of the project, our team hosted an opening ceremony with the community leader and local kids with some fun games and the unveiling of our work. On behalf of all generous donors, we donated pens, books, paper and sporting equipment for their new rooms. The project finished off with smiles, tears, and the strong bonds between our staff and the community.
